

A Simple RV Trip Checklist You Can Save

If you want one quick version to save on your phone or keep in your RV, this is the one I'd use.

Category	Checklist Items
Documents and trip info	• license, registration, insurance • roadside assistance info • campground confirmations • emergency contacts • pet records if needed
Hookups and setup gear	• freshwater hose • pressure regulator • water filter • sewer hose • gloves • shore power cord • surge protector • adapters • leveling blocks • wheel chocks
Safety gear	• first aid kit • fire extinguisher • flashlight • air compressor • jumper pack • reflective triangles • bottled water • basic tools
Kitchen and bathroom	• food and coffee • toiletries • medications • paper towels • trash bags • RV-safe toilet paper
Towing and departure	• hitch secured • chains connected • lights tested • tires checked • storage doors latched • awning secured • final walk-around complete

That's really the heart of the whole thing. If those categories are covered, you're in pretty good shape.
